TPA Member

Dear TPA member,

I thought I should drop you a note following the pleasing outcome of the GMC hearing in November where my restrictions were lifted; I have in fact made this notification in the World Thyroid Register [www.worldthyroidregister.com](http://www.worldthyroidregister.com) where I will be soon presenting the first action on this matter which is a representative letter to go to many bodies and embracing many parties and names from UK, Europe, USA and China.

I would like to sincerely thank all the TPA members who took the time to come to Manchester for the hearing which involved considerable expense and I am well aware that none of us at any time during this whole circus of catastrophe over many years, have had financial assistance for travel or accommodation; these were difficult times and I am very grateful to you and proffer my sincere thanks for your support during these years.

There is much work ahead and I will try to keep you informed through TPA and the World Thyroid Register. I regret that notwithstanding a staggering volume of academic evidence patients are still continuing to be undiagnosed or under treated following diagnosis or not provided with the necessary thyroid medication by their professional carers.

Thank you again.

Aye yours,

Gordon RB Skinner MD, DSc, FRCPath, FRCOG
